

# Universal Fiber Cleaning Cassette

## Cleaning for MPO, SC, ST, FC, LC, MU Connectors

The Optix America universal fiber optic connector cleaning cassette is compatible with all types of fiber optic connectors including MPO, MTP, SC, ST, FC, LC, and MU styles and provides over 500 cleans per cassette. The cleaning microfibers are densely stranded and rotate 180° for a full sweep providing cleanliness of the end face that can reach 97% or above. The cassette has excellent anti-static properties to prevent reattachment of dust to the ferrule after cleaning. Cleaning tape is easily replaceable and customer satisfaction is guaranteed!
