

Jackknife Fiber Cable Prep Tool

ALL IN ONE Fiber Prep Tool

The Jackknife is an exceptional time saving tool for cutting, stripping, cleaning and measuring fiber optic cable, including drop cable. It combines tri-hole strippers, drop cable stripper for 2mm and 3mm cable, kevlar scissors, lint free roller wipes, and ruler for measurement in one easy to use tool. Lint free rollers stay fixed when cleaning, rotate as needed for long lasting use, and are replaceable. Four additional rollers are included in packaging.
