

WRXTS1 ONE-STEP Thermal Stripper

Designed for 250um & 900um Single Fiber

Introducing the WRXTS1 one-step thermal stripper from OPTIX America designed for quick thermal stripping of 250um/900um single fiber and ribbon fiber. The one-step process is more efficient than other thermal stripper's and the new wide blade design enables multiple fibers to be stripped at once. The one-step process of the WRXTS1 makes stripping fiber cable quick and easy. It comes complete with four temperature settings including heat and save mode. The rechargeable lithium-ion battery provides up to 200 cycles of continuous stripping and can be charged while using. Package includes thermal stripper, AC adapter charger, USB charger, cleaning brush and carrying case.

Features

- One-step process saves time and is more efficient
- Specifically designed for stripping 900um and 250um single fiber
- Also excellent operation stripping ribbon cable
- Wide blade enables multiple fibers to be stripped at one time including up to twelve 900um single fibers and up to twenty four 250um single fibers
- Fast heating with two heating modes each with four temperature levels
- Includes thermal stripper, AC adapter, USB charger, cleaning brush, and case
- Removable fiber holders not required or needed for stripping
- Rechargeable lithium-ion battery
- 200 cycles of continuous stripping
- Ergonomic design, small size and lightweight
- Reach, CE, ROHS international standard

Specifications

Parameter	Description
Applicable Fiber	250um single fiber, 900um single fiber, ribbon cable
Stripping Count	250um single fiber up to twenty four at one time; 900um single fiber up to twelve at one time; Ribbon cable up to 12 fibers at one time
Blade Width	20mm

Stripping Length	≤32mm
Temperature Setting	85, 95, 105, 110, 115, 120, 130, 145 degrees Celsius
Heating Mode	Normal Mode / Save Mode
Automatic Shutdown	Six minutes
Battery Capacity	3500mAh Lithium-ion battery. Full charge time three hours
Dimensions / Weight	119mm x 41mm x 29mm / 245 grams
Power Supply	AC Adapter - 12V, Built-in battery - 7.4V, 3500mAH

Ordering Information

Part Number	Description
WRXTS1	One-step thermal stripper with wide blade design for stripping multiple 250um/900um single fibers and ribbon fibers. Includes thermal stripper, carrying case, AC adapter, USB charger, brush, & case.
