

FIBER OPTIC QUICKCLEANS2

Faster Fiber Cleaning & Avoid IPA Exposure

Fiber Optic Wet/Dry QuickCleans2 offers a faster way to clean fiber optic cables and also prevent skin exposure to isopropyl alcohol (IPA) and other cleaning agents. The QuickCleans2 utilizes a spring loaded tweezer style design that makes cleaning fiber simple and fast. The cleaning pads are made from a non-woven, high-density, hydro-entangled 45/55 cellulose/polyester blend, ensuring optimal purity and excellent absorbency. Each pad is designed to last a minimum of 200 uses. The QuickCleans2 package includes a fiber cleaning tool, ten cleaning pads, and a 50ml fluid dispenser bottle.
