

Fiber Optic Cleaning Pens

High Performance Cleaners - MPO, 2.50mm, & 1.25mm

2.5mm and 1.25mm Cleaning Pens

- 2.5 mm and 1.25 mm Cleaning Pens use a simple push to remove dust and oil from fiber optic connector ferrule end faces
- Superfine fiber construction enhances cleaning
- Each unit provides 800+ cleans
- Designed for cleaning single fiber connectors in adapters, faceplates, or bulkheads using a dry cloth method
- The dust cap doubles as an adapter for cleaning unmated connectors
- User-friendly one-push motion for engagement and cleaning
- Constructed from antistatic resins
- Micro fibers are densely stranded and debris-free

MPO/MPT Cleaning Pen

- High-performance device designed for cleaning the ferrule end-faces of MPO & MTP connectors
- Effective on a variety of contaminants including dust and oils
- Intermateable with FOCIS-5(MPO)
- Capable of cleaning ferrules with or without guide pins
- Capable of cleaning male and female MPO/MPT ferrules inside or outside an MPO/MPT adapter
- 500+ engagements per unit
