

# Fiber Optic Quickcleans

## Faster fiber cleaning & avoid skin exposure to IPA

The OPTIX Fiber Optic Wet/Dry QuickCleans offer a faster way to clean fiber cables while protecting technicians from skin irritation caused by repeated exposure to isopropyl alcohol (IPA) and other agents. The tweezer-style design features lint-free pads for superior cleaning and a loop tie-down to prevent loss.

Made from a high-density cellulose/polyester blend for maximum purity, these tools are compatible with any professional fluid pump dispenser. Each QuickClean is highly absorbent and tested for over 100 uses. QuickCleans are available in packages of ten.

## Features

- Tweezer design saves time when cleaning fiber cables
