

# Fiber Connector Cleaning Kit

## Scope, Cassette, IET Tool, Cleaning Pens, & Sticks

The Optix America Fiber Optic Connector Cleaning Kit is a comprehensive, field-ready solution designed to ensure optimal performance and reliability of fiber optic networks. Engineered for technicians and installers, this all-in-one kit provides the essential tools required to effectively clean and inspect LC, SC, ST, and FC connector endfaces. By removing dust, oil, and other contaminants, the kit helps reduce signal loss, prevent damage, and maintain peak network efficiency. Built for convenience and precision, the kit includes a high-magnification handheld fiber microscope, a high-capacity cleaning cassette, multiple cleaning pens and sticks for different connector sizes, and lint-free wipes paired with cleaning fluid for thorough endface preparation. Housed in a durable soft case for easy transport and organization, the Optix America cleaning kit is an indispensable solution for both field service and installation environments.

## Features

- Comprehensive, field-ready fiber optic connector cleaning kit for technicians and installers
- Designed to clean and inspect LC, SC, ST, and FC connector endfaces
- Effectively removes dust, oil, and contaminants to reduce signal loss and prevent damage
- Helps maintain optimal network performance and reliability
- Includes 2.5mm 400x handheld fiber microscope with 1.25mm adapter for detailed inspection
- High-capacity cleaning cassette with 500+ uses for consistent performance
- Connector IET insert/extract tool for safe and easy handling
- 2.5mm and 1.25mm cleaning pens for quick, efficient endface cleaning
- 2.5mm and 1.25mm cleaning sticks for precision cleaning in tight spaces
- 2" x 2" lint-free wipes (150 count) for thorough surface preparation
- Cleaning fluid pump bottle for controlled and effective application
- Packaged in a durable soft case for easy transport and organization
- Ideal for field service, installation, and maintenance application

## Specifications

Items Included	Description
<b>Fiber Microscope</b>	Handheld 2.5mm 400X microscope with 1.25mm adapter
<b>Connector insert/extract tool</b>	Inserts/extracts LC, SC, MPO connectors from enclosures
<b>Cleaning Cassette</b>	0.02dB(SM), 0.01dB(MM), 0.04dB(NZDS), 0.04dB(EDF)
<b>2.50mm cleaning pen</b>	800+ cleans for SC, ST, and FC Connectors
<b>1.25mm cleaning pen</b>	800+ cleans for LC and MU Connectors
<b>2.50mm cleaning stick</b>	2.50mm SC, ST, FC cleaning sticks (100)
<b>1.25mm cleaning stick</b>	1.25mm LC, MU cleaning sticks (100)
<b>Lint free wipes</b>	2"x2" lint free wipes (150)
<b>Cleaning fluid bottle</b>	250ml fluid pump bottle
<b>Soft case</b>	Padded soft case 10"x 6"x 8"

## Ordering Information

Part Number	Description
<b>FOCC-KIT</b>	Includes all the items listed above to successfully clean 2.5mm and 1.25mm fiber optic connectors
