

Universal Fiber Cleaning Cassette

Cleaning for MPO, SC, ST, FC, LC, MU connectors

The Optix America universal fiber optic connector cleaning cassette is designed for compatibility with all major connector types, including MPO, MTP, SC, ST, FC, LC, and MU. Each cassette delivers over 500 cleaning cycles, ensuring long lasting performance in the field. Its densely woven microfiber cleaning ribbon rotates 180° with each use, providing a full sweep of the connector end face and achieving cleanliness levels of 97% or higher. The cassette also features excellent anti-static properties to help prevent dust from reattaching to the ferrule after cleaning.

Features

- Compatible with all major fiber optic connector types, including MPO, MTP, SC, ST, FC, LC, and MU
- Delivers over 500 cleaning cycles per cassette for long-lasting performance
