

WRXCL10 Precision Cleaver

Stable Cleaving Operation

Introducing the WRXCL10 precision cleaver featuring a removable scrap bin and delivering high-precision fiber cleaving for 250µm, 900µm, 2mm, 3mm, and ribbon fiber cable. Designed to maximize work efficiency, the WRXCL10 offers a simple two-step operation with automatic blade reset for fast and consistent performance in the field. The universal adapter plate supports all standard single-fiber applications and the cleaver is also compatible with industry-standard removable fiber holders. With sixteen blade positions, the WRXCL10 provides up to 48,000 fiber cleaves while allowing quick and easy blade adjustment and replacement for extended service life.

Features

- WRXCL10 precision cleaver with removable scrap bin performs efficient cleaving operation for 250µm, 900µm, 2mm, and 3mm single and ribbon fiber cables
- Simple two-step operation maximizes work efficiency
- Automatic blade reset for faster and more consistent cleaving
- Universal adapter plate included for all single-fiber applications
- Compatible with industry-standard removable fiber holders
- Sixteen blade positions for extended blade life
- Provides up to 48,000 fiber cleaves
- Simple blade adjustment and replacement for easy maintenance

Specifications

Parameter	Value
Applicable Fiber	250µm, 900µm, 2mm, 3mm single cable; ribbon cable
Fiber Cleave Length	9mm - 16mm
Fiber Cleave Angle	90 degrees +/- 0.5 degrees
Holder	Universal fiber adapter plate
Weight/Dimensions	350g / 63mm x 76mm x 63mm

Ordering Information

Part Number	Description
WRXCL10	Two-step precision cleaver with integrated bin
