

WRXD30 Drop-Proof Cleaver

Drop-proof up to 30 ft

The WRXD30 drop-proof precision cleaver delivers high precision fiber cleaving for 250µm, 900µm, 2mm, and 3mm single fiber applications. It is the only precision cleaver engineered to withstand drop tests of up to 30 feet (10 meters), making it ideal for demanding field environments.

The patented magnetic levitation blade design is self-adjusting, eliminating the need for blade height adjustments or blade rotation. Each blade provides up to 3,500 cleaves before disposal, and blade replacement takes less than one minute. Five blades are included with every package. Small and lightweight, the WRXD30 maximizes work efficiency with simple two-step operation and automatic blade reset for fast, consistent performance.

Features

- Precision cleaving for 250µm, 900µm, 2mm, and 3mm single fiber cable
- Only precision cleaver designed to withstand drop tests up to 30 feet (10 meters)
- Patented magnetic levitation blade design automatically self-adjusts
- No blade height adjustment or blade rotation required
- Each blade provides up to 3,500 cleaves before replacement
- Blade replacement takes less than one minute
- Includes five total blades in each package
- Small and lightweight design for easy field use
- Simple two-step operation maximizes work efficiency
- Automatic blade reset for fast, repeatable cleaving

Specifications

Parameter	Value
Applicable Fiber	250µm, 900µm, 2mm, and 3mm single fiber cable
Fiber Cleave Length	10mm - 24mm
Fiber Cleave Angle	90 degrees +/- 0.5 degrees
Holder	Universal fiber adapter plate
Weight/Dimensions	3.84 ounces / 3.4"x 2.2" x 1.7mm

Ordering Information

Part Number	Description
WRXD30	Drop-proof cleaver includes five blades and hard case
